**WORK RESUMES ON CANAAN ROAD AND BRIDGE PROJECT**  
**1.25 MILES OF US 4 AND NEW BRIDGE OVER THE MASCOMA RIVER**

The New Hampshire Department of Transportation announces work is resuming on the road and bridge construction project on US Route 4 in Canaan that began in October of 2003.

This project involves the reconstruction of approximately 1.25 miles of US Route 4 and the replacement of the US Route 4 Bridge over the Mascoma River. Initial work this year will involve the construction of a temporary road to allow for the bridge replacement.

Motorists traveling on US Route 4 in Canaan should expect minor delays and proceed with caution through the work zone.

R.S. Audley, Inc. of Bow, New Hampshire is the general contractor for the \$2.18 million project, which has a final completion date of spring 2005.
